A First Course in Linear Algebra is an introductory textbook designed for university sophomores and juniors. Typically such a student will have taken calculus, but this is not a prerequisite. The book begins with systems of linear equations, then covers matrix algebra, before taking up finite-dimensional vector spaces in full generality.

A First Course in Linear Algebra (A Free Textbook)

Generally, an applicant to the Master's in Applied Linguistics Program is required to have least a 3.0 GPA, preferably in a relevant field of study such as foreign language, linguistics, sociology, anthropology, English, history, political science or psychology.
