

art in motion animation pdf

Animation is a dynamic medium in which images or objects are manipulated to appear as moving images. In traditional animation, images are drawn or painted by hand on transparent celluloid sheets to be photographed and exhibited on film. Today most animations are made with computer-generated imagery (CGI). Computer animation can be very detailed 3D animation, while 2D computer animation can be ...

Animation - Wikipedia

Stop motion is an animated-film making technique in which objects are physically manipulated in small increments between individually photographed frames so that they will appear to exhibit independent motion when the series of frames is played back as a fast sequence. Dolls with movable joints or clay figures are often used in stop motion for their ease of repositioning.

Stop motion - Wikipedia

Stop Motion Animation is an excellent way to have students begin to explore the world of movie making. There are several stop motion animation apps and programs that help you begin your journey.

Stop Motion Animation - Makerspace for Education

The Animation Option provides a thorough education in the creative, practical and historical uses of animation. The option encourages an experimental approach to animation that combines traditional and contemporary techniques. The aim of the animation option is to bring out the artist in the animator, by giving students critical and creative goals.
