

business intelligence a managerial pdf

Business intelligence (BI) comprises the strategies and technologies used by enterprises for the data analysis of business information. BI technologies provide historical, current and predictive views of business operations. Common functions of business intelligence technologies include reporting, online analytical processing, analytics, data mining, process mining, complex event processing ...

Business intelligence - Wikipedia

Management (or managing) is the administration of an organization, whether it is a business, a not-for-profit organization, or government body. Management includes the activities of setting the strategy of an organization and coordinating the efforts of its employees (or of volunteers) to accomplish its objectives through the application of available resources, such as financial, natural ...

MBCI - 1 Principles of Management

In 1990, in my role as a science reporter at The New York Times, I chanced upon an article in a small academic journal by two psychologists, John Mayer, now at the University of New Hampshire, and Yaleâ€™s Peter Salovey. Mayer and Salovey offered the first formulation of a concept they called â€œemotional intelligence.â€•
