Fashion design is the art of applying design, aesthetics and natural beauty to clothing and its accessories. It is influenced by cultural and social attitudes, and has varied over time and place. Fashion designers work in a number of ways in designing clothing and accessories such as bracelets and necklaces.

Fashion design - Wikipedia

Design is the creation of a plan or convention for the construction of an object, system or measurable human interaction. Design has different connotations in different fields (see design disciplines below). In some cases, the direct construction of an object (as in pottery, engineering, management, coding, and graphic design) is also considered to use design thinking.

In organizations, users' compliance with information security policies (ISP) is crucial for minimizing information security (IS) incidents. To improve users' compliance, IS managers have implemented IS awareness (ISA) programs, which are systematically planned interventions to continuously transport security information to a target audience.
