In metallurgy, stainless steel, also known as inox steel or inox from French inoxydable (inoxidizable), is a steel alloy with a minimum of 10.5% chromium content by mass.. Stainless steels are notable for their corrosion resistance, which increases with increasing chromium content.Additions of molybdenum increase corrosion resistance in reducing acids and against pitting attack in chloride ...

Stainless steel - Wikipedia

This specification describes the required characteristics of reagent waters. Four types of waters have been specified, with three additional grades that can be applied to the four types. The grade specifications specifically address contaminants of microbiological origin. Historically, reagent water ...

ASTM D1193 - 06(2018) Standard Specification for Reagent Water

Slotted Waveguide Antennas. Unlike wideband antennas like the biquad, slotted waveguides are resonant antennas, and have a relatively narrow operating frequency range. The designs I am describing on this page have an adequate bandwidth for any WLAN, but they have been carefully designed and must be equally carefully constructed.
