Source Install. The source "installation" really is about not installing Odoo, and running it directly from source instead. This can be more convenient for module developers as the Odoo source is more easily accessible than using packaged installation (for information or to build this documentation and have it available offline).

### **Installing Odoo – odoo 10.0 documentation**

Oracle acquired Sun Microsystems in 2010, and since that time Oracle's hardware and software engineers have worked side-by-side to build fully integrated systems and optimized solutions designed to achieve performance levels that are unmatched in the industry. Early examples include the Oracle Exadata Database Machine X2-8, and the first Oracle Exalogic Elastic Cloud, both introduced in late 2010.
