Organizational theory consists of approaches to organizational analysis. Organizations are defined as social units of people that are structured and managed to meet a need, or to pursue collective goals. Theories of organizations include rational system perspective, division of labour, bureaucratic theory, and contingency theory. In a rational organization system, there are two significant ...

Dependency theory is the notion that resources flow from a "periphery" of poor and underdeveloped states to a "core" of wealthy states, enriching the latter at the expense of the former. It is a central contention of dependency theory that poor states are impoverished and rich ones enriched by the way poor states are integrated into the "world system".
